Subject: General Report

Hello,

During this month there were several interesting events. First there was an Executive Elections in the middle of the month. As I was one of the candidates running for the position of VP External Communications, I was unable to participate in any of the SABVC events. We had a Forum before that where each of the candidates spoke about his/her intensions and plans. Later after being elected as a VP External Communication I started to participate in the events. Fist I was hosting International Women Day for Indian Club Society. Together with Student Life Committee we organize two major events for the next month: Banff Trip and Graduation Party. I personally promoted the Banff Event and selling tickets. I also participated in Finance Committee meeting where the budget was discussed. Finally, there was a meeting regarding Bylaws and Policies definition. We also had General Council meeting where the major topics were discussed.

Sincerely,

Shorena Esartia
